EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Anderson on 1/26/04.

The application has been amended as follows:

a) Claim 1, line 9-10, delete "substantially only the gas permeable tube" and replace with --the probe such that the body is outside the enclosure and the gas permeable tube is--.

The following is an examiner's statement of reasons for allowance: applicants arguments are persuasive that the Austin et al. reference does not teach or suggest a probe body made of a single piece of metal nor is the probe body positioned outside of the enclosure as shown in the figure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
